

How To Make \$1K + Daily With AI Cash Machines

(My Step-By-Step Plan To Make 7-Figures From Affiliate Marketing)

With Zach Crawford

**From Trailer Park, Broke,
And \$50k In Debt**

Millionaire

If you're reading this right now, I want you to realize there has never been an easier time in history to become a millionaire and create your dream life.

I started online 12 years ago when it was **“HARD.”**

I didn't have half the opportunities, technology, and resources you now have.

If you have a phone, computer, Wi-Fi, and the basic skills of a 12-year-old, you can now create a six or seven-figure business online.

I see people comment on my social media about being broke and unable to figure out how to make money online.

There is no excuse to be broke with all the opportunities you now have available.

[Footer Note: If you want AI-Powered Cash Machines that generate \\$1k - \\$10k commissions without your own products, websites or any tech skills click here!](#)

There are a million ways to become a millionaire online, and this PDF will cover the best one for making your first million online.

When I started, I was “legit” broke and depressed and started with \$50,000 in debt from a drunk driver hitting me.

I used the pain and frustration of the debt to motivate me to learn how to make money online. This would allow me to get out of debt and provide my family with the life they deserve.

In just 18 short months, I went from \$50k in debt to a millionaire with high-ticket affiliate marketing.

I now run a business that makes millions yearly and am working on making \$1 million/month.

I created my dream life.

I drive supercars, wear \$25k watches, travel the world, and fly business class wherever I go.

I was able to retire my parents, get them a house, buy my dad his dream truck, and give them the life they truly deserve.

[Footer Note: If you want AI-Powered Cash Machines that generate \\$1k - \\$10k commissions without your own products, websites or any tech skills click here!](#)

I'm able to give my wife and son everything they truly deserve.

This is what my monthly income looks like these days...

[Footer Note: If you want AI-Powered Cash Machines that generate \\$1k - \\$10k commissions without your own products, websites or any tech skills click here!](#)

These are just a handful of the million-dollar awards I've won. (You can't fake these. Google "Two Comma Club Award.")

The part I'm most proud of is helping thousands of my customers make their first money online, then quit their jobs and create the life of their dreams.

[Footer Note: If you want AI-Powered Cash Machines that generate \\$1k - \\$10k commissions without your own products, websites or any tech skills click here!](#)

And if you're wondering if I've helped other people become millionaires...

Philip Johansen
BRO I JUST MADE 1MILL AFTER JOINING YOU!!!!

11:06 AM

Zach

✓ 11:14 AM

Seriously man super proud of you.

✓ 11:14 AM

You're a beast and don't mess around

✓ 11:14 AM

Philip Johansen
yeah man crazy shit. it just exploded after investing in you

11:14 AM

Footer Note: *If you want AI-Powered Cash Machines that generate \$1k - \$10k commissions without your own products, websites or any tech skills click here!*

I didn't tell you all this to brag, but hopefully, it will inspire you and show you that if a guy like myself, who isn't very smart and started with \$50k in debt, can turn his life around... then so can you.

I also wanted to show you that you're not wasting time with someone who is telling you to do something they did not do themselves.

Sadly, you will come across many people online who will tell you anything to get your money.

I pride myself on practicing what I preach, and I only share my personal journey and the results of my students.

I've helped thousands of my students make their first money online and many went on to make six and seven-figure incomes. [A few of them are here.](#)

Before we get started... let me introduce myself.

If you don't care about how I started feel free to skip to page 10.

Who Is Zach Crawford?

When I started this business, I was just a normal guy, nothing special, and I knew nothing about online business or how to start a business.

My technical skills included checking my email and surfing Facebook and YouTube.

The only thing I had going for me was the fact that I was depressed, \$50k in debt, and obsessed over killing myself.

What are you talking about Zach... How is that good?

Well, you see back in 2006 a drunk driver that was 16 years old hit me while I was riding my motorcycle.

[Footer Note: If you want AI-Powered Cash Machines that generate \\$1k - \\$10k commissions without your own products, websites or any tech skills click here!](#)

It broke my legs and put me in major debt because she had no insurance and left me in a very bad spot at just 19 years old.

I had to learn to walk again and learn basic grammar, and creditors chased me daily to pay for debt.

I was so miserable I thought there was no light at the end of the tunnel and I started thinking to myself that life was not worth living.

I went down a terrible road involving drugs, alcohol, and a major self-pity party.

I had become a very bitter person and I felt I had no reason or nothing to live for.

Eventually, I knew I needed to make a major change in my life and find a way to get out of debt and change the direction of my life.

That's when I started my journey of learning about online marketing.

Soon after I learned about online business, I learned that you could live cheaply in the Philippines while building your business.

At this point, I saved every penny I could and waited for the perfect time to quit my job so I could work full-time on my business, but...

[Footer Note: If you want AI-Powered Cash Machines that generate \\$1k - \\$10k commissions without your own products, websites or any tech skills click here!](#)

The creditors were breathing down my neck and threatening to sue me for all the debt from the drunk driver.

Then, one day, my boss made me mad, so I gave two weeks' notice before planned, booked a one-way ticket to the Philippines, and never looked back.

Now, you probably think this is where I rode off into the sunset, lived it up on beautiful beaches, drank long islands, and lived the high life.

Wrong!!!!

Over the next few years, my journey to achieving this dream of making money online was like a constant roller coaster ride.

I had many more setbacks and failures when I started than actually making money.

Now, why did I just tell you all of this?

[Footer Note: If you want AI-Powered Cash Machines that generate \\$1k - \\$10k commissions without your own products, websites or any tech skills click here!](#)

Well.....because if I knew what I know today, I would have been a millionaire in just 12 months or less.

I wasted a lot of time trying inferior businesses, such as social media marketing agencies (SMMA), Amazon FBA, and Dropshipping.

These businesses require a lot of money to start stocking products, providing customer service, and hiring employees.

Once I figured out the right business model, it took me 18 months to go from broke and struggling to make my first \$1,000,000 online.

I'm now running a business that has done \$7,000,000 in the last 24 months.

I'm currently working on scaling it to \$1 Million/Month.

I want you to understand one thing...

If you can make \$10 online, you can make \$100.

If you can make \$100, you can make \$1000.

If you can make \$1000, you can make \$10k.

If you can make \$10k, you can make \$100k.

If you can make \$100k, you can make \$1,000,000.

It's all about being consistent and doubling down on what works.

It doesn't matter what country you're from, how broke you are, or what your current circumstances are, I believe you can do this too.

If you have a job and aren't \$50k in debt, you're 10x ahead of me when I started.

That said, I will share with you the best model for making your first six or seven figures online.

Now that you know my backstory I don't want to waste any more time and really jump into what you need to do to get results fast.

The Best Business Model For A Beginner To Make Six or Seven Figures Online

After making over \$9,000,000 online and running several profitable businesses, I only recommend two proven business models.

I've watched many business models come and go over the last 12 years, and these are the only two that have gotten bigger over time and will still be here 10 years from now.

One of the biggest lessons I can teach you if you want to make a boatload of money online...

Don't Listen To What Successful Entrepreneurs Say, [Look At What They Do!](#)

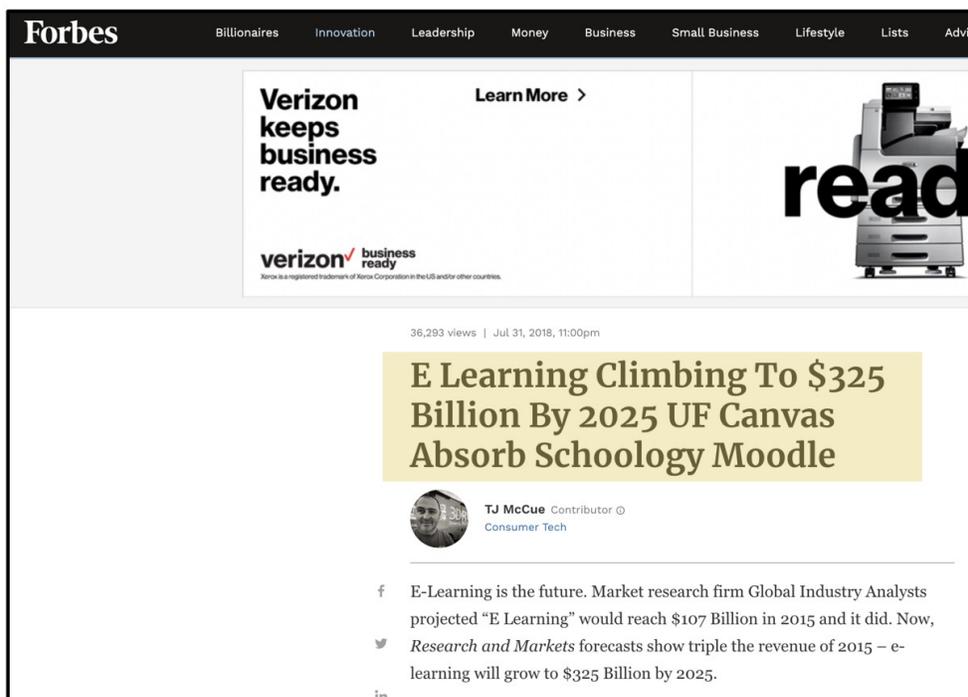

[Footer Note: If you want AI-Powered Cash Machines that generate \\$1k - \\$10k commissions without your own products, websites or any tech skills click here!](#)

The richest people online are selling digital products, services, and information.

There is a very good reason for that.

E-Learning is climbing to a \$325 billion-a-year industry and getting bigger and bigger by the year.

You don't get rich by running social media marketing agencies, selling physical products on Amazon, running a TikTok shop, or following other business models gurus promote.

They are getting rich by selling digital products and teaching YOU "how to do the business models."

So, How Do You Get Rich?

[Footer Note: If you want AI-Powered Cash Machines that generate \\$1k - \\$10k commissions without your own products, websites or any tech skills click here!](#)

Selling digital products and services can make you rich because you can sell worldwide and have an unlimited supply.

No money is required to stock products and massive profit margins, and you can do it without hiring employees or providing customer service.

We are in a digital gold rush, and people crave information.

Not just information on how to make money online.

On how to do hobbies, how to save their marriage, how to lose weight, and thousands of other topics.

I will show you how you can tap into this digital gold rush without creating your own products, providing customer service, or learning a million skills.

Two Proven Business Models:

1.) Creating your own products

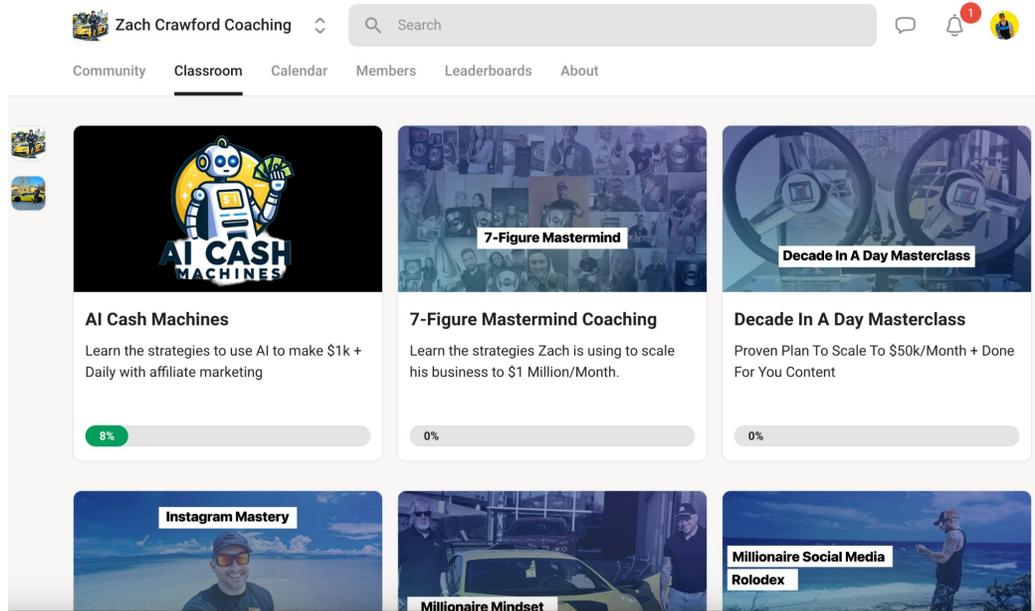

2.) Affiliate Marketing - How I made my first million in just 18 months

I'm going to explain both of these models individually because I've made a ton of money with each.

Each business model has pros and cons.

Creating Your Own Products

Footer Note: [If you want AI-Powered Cash Machines that generate \\$1k - \\$10k commissions without your own products, websites or any tech skills click here!](#)

Creating your own information products is one of the most profitable business models, and it's made me millions.

The upside to this business model is that you 100% control the outcome.

You can choose your price point, receive 100% commission, and make all the business decisions.

This model is one of my favorites, but I don't recommend it unless you're an experienced marketer with years of experience.

It requires:

- Getting merchant's accounts (very easy to lose your merchant accounts)
- A full stack skillset
- You need social proof and credibility to sell your own products.
- Thousands of dollars monthly for software.
- Employees to help you run the business.
- Customer service (daily support tickets and questions)

[Footer Note: If you want AI-Powered Cash Machines that generate \\$1k - \\$10k commissions without your own products, websites or any tech skills click here!](#)

When I started selling my own products, it took me over two years to learn how to make them go viral.

The learning curve was intense, and I had to level up my skillsets and build a team of employees to help me manage the business.

I recommend the affiliate marketing model for beginners.

It's much easier to get started because you can leverage someone else's credibility and social proof, and there is a low barrier to entry.

Affiliate Marketing

The easiest business model for a beginner to make their first million is affiliate marketing.

You partner with millionaires, promote their proven products, and earn a commission when a sale is made through your referral link.

99% of people do this completely wrong, so they never make much money.

I want to teach you how to build a long-term, reliable, predictable, and consistent business that will allow you to profit for years.

Let's first define affiliate marketing, just in case you don't know.

Affiliate marketing is the process of promoting someone else's product, and when a purchase is made, you get a commission from your referral.

[Footer Note: If you want AI-Powered Cash Machines that generate \\$1k - \\$10k commissions without your own products, websites or any tech skills click here!](#)

“Affiliate Marketing”

Some of the biggest companies in the world have affiliate programs.

[Footer Note: If you want AI-Powered Cash Machines that generate \\$1k - \\$10k commissions without your own products, websites or any tech skills click here!](#)

Affiliate Marketing Is The Fastest Path To Six or Seven-Figures...

- Best way to tap into a **\$325 Billion Dollar Industry!**
- You don't need to be an "EXPERT"
- No customer support, low startup costs compared to other business models and high profit margins.
- You don't need a large social media following to make it work
- You can almost completely automate the whole business making passive income.
- You can run the business with just a few hours a day.

You will make an average affiliate marketing commission between 25-50%.

The business model can be extremely profitable, but most people do this business model completely wrong.

Most affiliates are just driving traffic to an affiliate offer to make commissions.

But....what happens after you make a sale?

The problem with marketing this way is that you lose the customer forever.

You're giving up thousands of dollars when you send your leads to someone else's product.

A thriving business makes its money on the backend from previous customers.

A 7-figure business doesn't survive on one-time sales.

[Footer Note: If you want AI-Powered Cash Machines that generate \\$1k - \\$10k commissions without your own products, websites or any tech skills click here!](#)

Your best customers are people who have already purchased from you because some of those customers will buy from you again and again.

When you use the traditional affiliate marketing model, you send your valuable leads to someone else for a small percentage of the profits when a sale is made.

Once the person buys the product, the marketer who owns it will promote more of its own products and other affiliate offers, and you don't make a dime after the initial sale.

If you've ever seen some affiliate programs that will pay you 100% commission on a product that is \$7-\$500... it's because they know they will make a ton of money in the future from those customers.

So you do all the hard work to send them leads, they motivate you with 100% commissions on the small front-end products, and then they will have several high-ticket products and services on the backend which you won't get paid for.

When you send your leads to someone else's product, you don't own the customer; they do.

Do you see why just being an affiliate marketer is a flawed business model?

You can make a lot of money with affiliate marketing but not as much as with high-ticket affiliate marketing.

If affiliate marketing sounds like a business you'd like to start, let's discuss the right way to do it.

How I Do Affiliate Marketing

Now that we know the wrong way to do things, I will teach you how to do affiliate marketing so you can make six—to seven figures.

[Footer Note: If you want AI-Powered Cash Machines that generate \\$1k - \\$10k commissions without your own products, websites or any tech skills click here!](#)

As I mentioned earlier, the real money is when you can sell your current customers more products in the future.

You want to be able to market to your customers more than once.

We do this by building an email list of people interested in buying the product you're recommending, just like I did with you.

The best part is that once you set the business up, it runs 24/7/365, bringing in sales even when you're sleeping or on vacation.

It's a cash machine that runs without you physically working.

So here is how I do affiliate marketing:

- I create a free eBook or video to give away for free. (a freebie)
- I create a lead capture page to give away the product and capture people's emails (like the one below).

Join Countless People Generating 5, 6, & Even 7-Figures From The Comfort of Their Own Homes...

Discover How To Launch AI-Powered Cash Machines That **Automatically Generate \$1,000, \$2,000, \$5,000, & Even \$10,000 Commissions Every Day**

Yes! I Want To Create A New Income Stream!

yahoo! finance BUSINESS INSIDER CNBC Medium

Footer Note: [If you want AI-Powered Cash Machines that generate \\$1k - \\$10k commissions without your own products, websites or any tech skills click here!](#)

- I run traffic from social media to the lead capture page.

I create simple 3-7-second reels like the ones below. You can even do it without showing your face.

- I find affiliate products to promote and create email autoresponder follow-up messages to build relationships and promote the products on autopilot.
- Find other relevant products that will help my email subscribers in the future and recommend those products to them.

The difference between my model and the flawed one is that I collect people's emails before sending them to a sales page.

I can market to them repeatedly. Most affiliates spend their time driving traffic to make a one-time sale.

The money is in repeat customers, and if you don't collect their email first, you're leaving hundreds of thousands of dollars on the table.

This was a horrible mistake I made as a newbie, and I want to help you avoid making the same mistake.

[Footer Note: If you want AI-Powered Cash Machines that generate \\$1k - \\$10k commissions without your own products, websites or any tech skills click here!](#)

When I first joined this business, I heard all the big marketers talk about how you absolutely have to build your email subscriber list.

Sadly, I decided to ignore this early on, which cost me a lot of money.

Don't make the same mistake I did.

I can send out an email to all the people on my email list and print money.

I've made as much as \$100,000 in one day from just emailing my subscriber list.

Could you imagine sending an email and making an instant \$1000 whenever you need cash?

It can 100% be your reality when you learn how to do it.

It's the absolute key to this business and making lots of money.

If you learn one thing from this eBook, it should be to build your email list.

High Ticket Affiliate Marketing

My favorite model is the high-ticket affiliate model.

I like this model for my customers and myself because it combines the affiliate marketing business model with creating your own products and makes it easy for anyone to start.

The high-ticket affiliate marketing model allows you to make the type of money a product creator makes without creating the products or all the stress of running a business.

It saves you time by eliminating the need to learn how to set everything up and the advanced skills and marketing knowledge needed to create your own products.

[Footer Note: If you want AI-Powered Cash Machines that generate \\$1k - \\$10k commissions without your own products, websites or any tech skills click here!](#)

With the high-ticket model, you can tap into a proven business model with everything you need to get started. They have a proven system that you follow to get results.

It's a 90% done for you business model you plugin to and start marketing and making big commissions of \$1k to \$10k per referral.

Traditional affiliate marketing is flawed because you only make small commissions, making it very hard to grow your business.

The Money Is In High Ticket

Most people think it's much easier to sell low-ticket products like \$7-\$500 to reach their desired income, but I find the opposite to be true.

Low-ticket products have their place.

It gives the customer massive value, shows them what it's like to do business with you, and builds trust so they feel comfortable investing more money in you.

But you will not get rich selling low-ticket products.

Let's take the equation of making \$8,333 a month (six-figure yearly income).

To earn our monthly income of \$8,333, we would need to sell about 490 products costing \$17 or about 177 products costing \$47.

Or

You could recommend a product that earns you a \$1000 commission, and you would only need 10 customers per month.

From personal experience, I can tell you that it's 10X easier to find 10 customers who meet your income goal than 177.

When I started years ago in high-ticket affiliate marketing it changed my life.

[Footer Note: If you want AI-Powered Cash Machines that generate \\$1k - \\$10k commissions without your own products, websites or any tech skills click here!](#)

It's the reason I went from zero to \$1,000,000 in earnings in just 18 months.

If I was just selling low-ticket products I would have never made 1/4th of the money.

That is why I created my own high-ticket affiliate program, which teaches you everything you need to know and allows you to make \$1k to \$10k in commissions.

I took 10 years of experience and created a 90% done for you business that makes you \$1K + commissions when you follow my step-by-step proven plan.

As you can see here Glen made over \$20,000 in his first 45 days.

The screenshot shows a Facebook profile for Glen Murray. The profile picture is a man with glasses. Below the name, there are icons for email, phone, and location, all of which are redacted with black boxes. There are also social media icons for Facebook, Twitter, YouTube, Instagram, and LinkedIn, along with an 'Add note' button. Below the profile information, there is a filter for 'AI Cash Machines'. A table shows a campaign with a redacted name and 6,459 clicks. Below this, there are tabs for 'All campaigns', 'Passive Affiliate Profits', and 'AI Cash Machines'. A 'Rewards summary' section shows a redacted name, 'Total unpaid' of \$20,391, and 'Approved' with a count of 481. At the bottom, there is a notification for a '9C 90 Day Challenge' where Bryan S joined the group via... and a post from Glen Murray dated July 27 at 9:20 AM saying 'Waking up to another \$1K plus day is amazing your program should be called The 7 Figure Cash Faucet lol' with a sunglasses emoji and a photo of a person.

[Footer Note: If you want AI-Powered Cash Machines that generate \\$1k - \\$10k commissions without your own products, websites or any tech skills click here!](#)

And there are 100's more just like him...

I built this business with the beginner in mind.

It gives you everything you need to launch your own profitable business.

[You can get started for just \\$27](#)

You will get:

• **The AI Cash Machines Course**

Unlock the power of AI to build wildly profitable passive income streams that pay you \$1,000, \$2,000, \$5,000, and even \$10,000 commissions 24/7 on autopilot, even if you're a complete beginner.

• AI Automation Prompts

Tap into my proprietary AI prompts, trained on millions of dollars in real-world data, to launch and scale wildly profitable AI-powered cash machines that can rake in cash faster than you'd ever think possible.

• **Organic Traffic Profits**

Master the art of generating floods of free, targeted traffic from platforms like TikTok, Facebook, and YouTube, and potentially turn that traffic into life-changing commissions without spending a dime on ads.

• **7-Figure Launch Checklist**

With this step-by-step launch checklist, you can eliminate the guesswork and ensure your affiliate promotions are set up for maximum success. I've used it to generate over \$9,000,000 in commissions.

• **Private Community**

Join an exclusive community of like-minded affiliates, where you can network with 6 and 7-figure earners, get your questions answered, and receive the support you need to achieve your goals faster.

[You can get access to everything mentioned for \\$27](#)

Summary

I hope you got value from this eBook, but it doesn't stop there.

Make sure to check your email often because I share many tips and strategies I'm using to scale my business to \$1 million/month.

It's my goal to help you avoid all the mistakes I've made during my journey and help you get results in your business much faster.

Finally, I suggest connecting with me on all my social media channels because my YouTube channel, Instagram, and Skool group provide many tips and content to help you with your business.

If you need help with anything feel free to send me a private message on Instagram or inside my Skool group.
